Fixed - The cost for the service is flat.

Low Variable - The work coming in is in generally good condition or is very simple.

Example: A single shot rifle needs to get pillar and glass bedding done.

Example2: A stock with some minor scratches from years of hunting trips comes in for a refinish.

High Variable - The work coming in is in poor condition, complex, or rare

Example: A hunting rifle which was left out in the elements for months with no protection comes in for cleaning

Example2: A stock which was used as a hammer for a home construction project comes in for a refinish

Example3: Your great great great grandfathers WWI rifle he brought back from the war needs to be cleaned and refinished before it goes onto a wall
